Subject: Re: Dealer Inquiry for Safety Reasons

Hi Paul,

Thank you for reaching out regarding our products. We appreciate all your support in carrying our products, especially knowing that your shop wants to sell the highest quality restraint gear possible. We do feel like we provide quality products across all our brands for different experience levels.

With that noted, we do want to be clear that **NONE of our products are designed or intended for full or partial suspension.** This applies to every SKU in our entire assortment, including the products listed in your email inquiry, regardless of hardware construction or attachment method. Our restraints must not be used to support or suspend any portion of a person's body weight.

As noted above, all of these would fall under the "not for suspension" category. Please note all our D-rings are pressed, not welded.

See below in bold regarding riveted or stitched D-rings.

- Sportsheets Five Piece Hog Tie & Cuff Set — SS32501 - **riveted**
- Sportsheets No Matter Where Adjustable Bondage Restraint System — SS20103 - **stitched**
- Sportsheets Velvet Noir Adjustable Hog Tie & Cuff Set — SS37003 - **riveted**
- Sex & Mischief Leash & Collar — SS10050 - **stitched**
- Sex & Mischief Ex's & Oh's Cross Cuffs — SS09981 - **stitched**
- Sex & Mischief Ex's & Oh's Bound & Belted — SS09986 - **riveted**
- Sex & Mischief Anywhere You Dare Bondage Restraint System — SS10312 - **stitched**
- Saffron Leash & Collar — SS48005 - **riveted**

Again, we want to reiterate for the safety of your customers that NONE of our products are designed or intended for full or partial suspension.

Thank you again. Please feel free to reach out if you have any additional questions or needs regarding our products.

We are also always open to hearing new product ideas that you feel would be a good fit for our brands, especially insights coming directly from a shop like yours and the customers you serve.

Kind regards,

CUSTOMER SERVICE

Subject: Dealer Inquiry for Safety Reasons

Hi —

Knotty Restraints (US dealer).

Our shop wants to sell the highest quality restraint gear possible for all levels of play (beginner to advanced). In many cases there is full or partial suspension involved in restraint play.

A pressed-link may give under enough strain. It may be that in giving or snapping, injury occurs.

For the Sportsheets / Sex & Mischief / Saffron restraint SKUs below, there is no explicit product copy I can find that details this part of construction.

Please help both us and our customers by answering whether your metal join D-rings are sewn/riveted into the strap (not carabiners or general "sturdy hardware").

Additionally we are looking for the following information:

For each named SKU: welded/closed or pressed/butted?
Any published load capacity, WLL, or "not for suspension"?

One plain sentence per SKU. If you can't confirm welded in writing, we treat it as pressed.

- Sportsheets Five Piece Hog Tie & Cuff Set — SS32501
- Sportsheets No Matter Where Adjustable Bondage Restraint System — SS20103
- Sportsheets Velvet Noir Adjustable Hog Tie & Cuff Set — SS37003
- Sex & Mischief Leash & Collar — SS10050
- Sex & Mischief Ex's & Oh's Cross Cuffs — SS09981
- Sex & Mischief Ex's & Oh's Bound & Belted — SS09986
- Sex & Mischief Anywhere You Dare Bondage Restraint System — SS10312
- Saffron Leash & Collar — SS48005

You wouldn't be in this business if you didn't want your customers to play safely, with quality gear.

We want the same thing, and feel our customers would be better served if this info was available to me.

Thanks —

Paul Wiklund
